

This detailed site plan illustrates a residential development project. The central area is filled with numerous building footprints, each accompanied by technical specifications such as floor area (e.g., 120m², 130m²) and construction type (e.g., MF 2013, MF 2014). The buildings are arranged in a grid-like pattern with internal streets and parking spaces. Surrounding the development are green spaces, including a large area labeled 'K1a' and 'R' at the bottom, and smaller green patches throughout. The plan also shows existing infrastructure, including roads like 'L 423 Hausener Straße' and 'Charlottenhöhe (Süd-Änderung)', and topographical features like 'Nieleswasen' and 'Obere Ziegelei'. A dashed line indicates the project boundary, and various labels like 'WA 1a', 'WA 1b', etc., are used to identify specific areas within the development.
